

## Enhanced Recovery Stent Pathway EPIC Order-set

The Order-set can be constructed by EPIC programming team at your institution to include follow up imaging orders (KUB, CT etc.) and ambulatory consult orders (to schedule cystoscopy and stent removal or Postoperative Visit).

The screenshot displays the 'Place New Orders' interface in EPIC. At the top, there are navigation buttons: '+ New Order', 'Clear All Orders', and 'Next'. Below this is a section titled 'Additional Discharge Orders' with a search bar and 'Search' and 'Pref List' buttons. The main area contains a list of four medication orders, each in a light blue box with a gear icon, a star icon, and a 'Remove' button. The orders are:

- diclofenac (VOLTAREN) 50 mg EC tablet**  
Take 1 Tab by mouth 2 times daily for 4 days., Disp-8 Tab, R-0, Print
- tamsulosin (FLOMAX) 0.4 mg capsule**  
Take 1 Cap by mouth daily for 14 days., Disp-14 Cap, R-0, Print
- phenazopyridine (PYRIDIUM) 200 mg tablet**
